

EES VENTURES PRIVATE LIMITED

Something for everyone

ERA SOLAR

**Make The Future Bright With
Solar Power**

• ABOUT US

EES VENTURES. We, EES VENTURES Are Design And Develop Rooftop Solar Projects In Government Sector Or Privet Sectors. In This Project We Have Used Different Reputed Manufacturing Companies Solar Pi/ Modules And Inverters.

Ees Ventures Provides Turnkey Solutions And Single Window Support For Solar Rooftop Power Plants For Captive Consu -Mption Including Design, Engineering, Manufacturing, Procurement, Installation, Testing, Commissioning , O&m, Monitoring And Training.

Ees Ventures Also Provides Additional Services For Liaison With Various Government Departments Such As Discoms, Cei, Geda For Regularization Of Solar Plants Including Necessary Permissions, Nocs And Rec Accreditations As Applicable.

We Have 1mw Single Rooftop Project Running Successfully Since Last One Years With Generation Performance More Than 17% Plf.

Make Money
From your Idle
Rooftop Space

No Tariff Hike

Depreciation
Benefits

100% Savings
On Your
Electricity Bill

Best Maintenance
Guarantee

Warranty 25 Years
On Solar Panel & 5 Years
On The Complete
System

- High Efficiency Solar Panels & Inverter Gprs Wi-fi Online Monitoring Syatem
- Hot-dipp Galvanized & Customized Modern Structure
- High Quality Equipment
- Eco-friendly

• **INSTALL SOLAR PANELS & EARN GOVT. SUBSIDY**

**Upto 3 KW
40% SUBSIDY**

**3 KW-10KW
20% SUBSIDY**

**5 Years Warranty
On The Complete
System**

**25 Years Warranty
On Solar Panel**

• **ACCELERATED DEPRECIATION :**

Section 32 of IT act provides Accelerated Depreciation of 80% of the invested capital to companies with tax liability. Solar Project Developers can set off their tax liability on the taxable income to the tune of 80% of Solar Project Value in the 1st year, and subsequently 20 % in the 2nd year.

• **NET METERING :**

Gujarat Has Come Up With Net Metering Allows The Solar Project. Owner To Feed The Excess Solar Power To Grid When The Load Available Is Low, Say, During Weekends In Office Buildings. The Excess Power Fed Is Offset Against The Electricity Used From The Grid When Load Is Higher Than The Solar Power Generation Within One Billing Cycle. It Reflects In Electricity Bill.

• **EASY ACCESS TO LOAN :**

RBI while it's circular No: RBI/2014-15/573 dated 23-04-2015 has declared the loan to solar permits under priority sector landing. Now, Client can avail loan up to 70 % of project cost easily for any Bank.

• **ELECTRICAL PROJECTS :**

WE OFFER :

- Air Circuit Breaker
- Vacuum Circuit Breaker
- VFD Panel / Soft starter Panel
- C & R Panel (Control & Relay)
- PCC Panel (Power Control Centre)
- APFC Capacitor panel
- Relay Based DG Synchronizing Panel
- Power Distribution Board
- Switchyard Installation Cabling & Testing
- Lightning Arrestor Survey & Installations
- DG Set installation
- Complete Electrical Distribution & Transformer –Design & Installations
- Safe Grounding Instruments

• **SYSTEM CONCEPT :**

We Offer Customized Solutions For Wide Range Of Industrial Solar Project :

- The Photovoltaic (PV) Grid Tied system
- consists of mainly of 3 components:
- The Crystalline Silicon PV array
- Solar Inverter (Power Conditioning Unit)
- BOS like MMS, AJB, MJB, ACDB, Cables,
- Hardware, Earthing & Lighting kit

• OUR CLIENT LIST :

- ISRO Gujarat Bopal Research Centre
- SSF Plastic India PVT Ltd
- Cube Construction PVT. LTD
- Cello
- Ronch Polymers PVT. LTD
- Anchor Electrical PVT. LTD Power by Panasonic
- Creative Plastics PVT. LTD
- Joyo Plastics (I) PVT. LTD
- Grasim Industries LLP

More than 20+ Client
